**REQUEST TO WITHDRAW ERRONIOUS REQUIREMENT FOR MISSING  
FIGURES**

Honorable Commission of Patents  
Washington D.C. 20231

Sir:

Applicant is in receipt of the Notice To File Missing Parts of Nonprovisional Application, mailed August 14, 2001, which states in a second part thereof, indicates that Figures 3 and 4 are missing.

It is respectfully submitted that these papers were originally filed with the application on May 24, 2001. As evidence of said filing, attached please find a copy of the return postcard date-stamped by the PTO Mail Room as having been timely received by the PTO on May 24, 2001, along with a copy of the first page of the transmittal letter of May 24, 2001, both of which indicate that the application was filed with 7 drawing sheets, containing figures 1-8.

As it appears that the presently missing drawing Figures 3 and 4 were somehow separated from the file after receipt by the PTO, copies of these figures are attached herewith.

In view of the above evidence, it is clear that the presently missing pages were originally filed. Indeed, the postcard by itself should be sufficient, as MPEP Section 503 states:

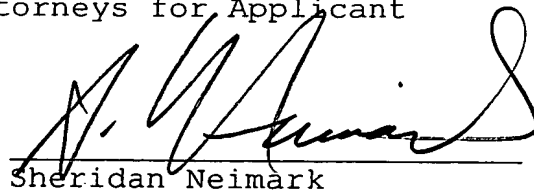

A postcard receipt which itemizes and properly identifies the papers which are being filed serves as *prima facie* evidence of receipt of the PTO of all items listed there on the date stamped thereon by the PTO.

No petition fee should be required. However, if a fee is due under 37 CFR 1.17(h) or other rule, it is respectfully requested that such fee be charged to the deposit account of the undersigned (02-4035).

In a first part of said Notice to File Missing Parts, it is stated that the basic filing fee, additional claim fees, oath or declaration and late declaration surcharge are missing. The missing documents with regard to the first part of the August 14, 2001, notice will be submitted under separate cover at a later date.
